Tour petitioner further represents that Mr. Glazier, the Superintendent of Lamps and Gas, gave him two districts, but subsequently, for cause unknown to your petitioner would furface represent to your headerable body, that he has been in the subsequently of th

of laying down the pavement known as the Russ pavement.

Several members spoke in favor and opposition to the preamble and resolution.

Alderman Burnt said that the contract of Messrs. Russ & Reid had been completed, and he, for one, would arrest any man he saw tearing up the gutter in his ward.

Alderman Morr contended that such work was not contemplated in Russ & Reid's contract. If it was they would have done it when they were paving Broadway.

Alderman Herrico was in favor of referring the matter to the Committee on Ordinances.

Alderman Morr moved as an amendment that the work be stopped until the Committee on Ordinances report.

After several smendments, the original motion was put, and carried by a vote 11 to 10.

HIE RABLER BAILERD.

Alderman Howard moved to call from the table a paper directing the New York and Harlem Railroad Company to take up the T rail on that line, and make it a groove rail.

paper directing the New York and Harlem Railroad Company to take up the T rail on that line, and make it a groove rail.

The Priminent said the resolution was before the committee, and not on the table.

Alderman Howard said it had been six months before the board and semething ought to be done. He wanted work, and didn't wish to sit there and here a parcel of men make bad speeches, (laughter,) while we are obliged to sweat here all the time. (Continued laughter.) Alderman Chainch was proceeding to say something, when the Chair called him to order, and delired him to take his seat.

Alderman Howard was proceeding to say something, when the Chair called him to order, and delired him to take his seat.

Alderman Howard appealed from the decision of the Chair.

The Priminent—The Alderman of the Sixth will please to take his seat until the question is put.

Alderman Howard—Then I will do so.
The motion was put to lay upon the table, when there appeared for reference six and fifteen against it.

Alderman Howard then moved the adoption of the original resolution, which was carried by a vote of thirteen to eight.

Alterman Butsu offered the following resolution:—That Mr. Taylor, the keeper of the City Hall, be, and he is hereby directed, to report to this board at its next meeting if there has been kept in his department, since the last of January last, for the accommodation of any member of the Common Council, any intoxicating Huguers, such as brandy, wines, &c. if so, who ordered the same; how long such liquor has been kept there, what quantity has been purchased, if the same has been been presented for payment, and what is the amount of subsets.

Alderman Howard said—Mr. Chairman, I move as an amendment, that if none has been furnished, he imme-

such bills.

Alderman Howard said—Mr. Chairman, I move as an amendment, that if none has been furnished, he immediately supply some. (Loud laughter.)

Alderman Harner said—Mr. Taylor might have what he liked in his own apartments; and he moved to lay the matter on the table, as one beneath the consideration of the Ecard.

Alderman Ecward said—They had no right to pry into

the private apartments of Mr. Taylor. It reminded him of going back to the old Connecticut laws, when they used to search a man's breeches pocket. (Laughter.) The amendment was lost by a vote of sixteen to five. Alderman Howard then moved that the matter be referred to the Committee on Arts and Sciences.

Alderman HERRICK seconded the motion. After some discussion, the original motion was lost by an even vote of ten to ten.

The report of the Commissioner of Repairs and Supplies, of expenditures for the month of April, 1854, was received and ordered on file.

THE LATE DEPASTROUS FIRE IN BROADWAY.

Alderman HOWARD moved that this Board concur with the Councilmen in appropriating the sum of \$1,600 for the purpose of defraying the funeral and other necessary expenses attending the late calamity at No. 231 Broadway, whereby several lives were lost while in the discharge of their duty as firemen. Concurred in.

INECRIVAL PARK.

A communication was received from the Commissioners of the Central Park, reporting progress, and calling the attention of the Common Council to the various contracts for grading, &c., on the site of the contemplated park. Referred to Finance Committee.

WIST OF EX-PRESIDENT FILMORE.

Alderman LORD moved a concurrence with the Board of Councilmen, in a resolution to meet and extend the hospitalities of this city to ex-President Fillmore, on his expected visit.

Alderman HERRICK was opposed to these cheap and nasty manifestations of hospitality. The ex-President hadfriends enough here who could show him around the city, and take him to some of the hotels and give him a dinner. There was no use in passing the resolution to extend the hospitalities of the city, for the Comptrole has refused to pay, and will not pay, any bill for champagne or dinners.

The resolution was passed by a unanimous vote, and the committee appointed, consisting of Alderman Lord, chauncey, Covert, Wakeman, Hoffmire, and the President.

Supreme Court—Special Term.

Before Hon. Judge Clerke.

Von Brunt and Watrous against Downing, City Inspector.—The establishment belonging to the plaintiffs, against which the City Inspector has been directed by an order of the Board of Health to proceed, is unquestionably a nuisance. It has been proved before me by a mass of incontrovertible evidence, that it renders the enjoyment of life and property uncomfortable in the vicinity in which it is placed. Is this all, however? Does the mischief or inconvenience which it produces extend no further than to render the enjoyment of human life and property uncomfortable? Is it not calculated to endanger and impair the health of the ishabitants residing in its neighborhood? It is an enormous hog establishment, where hundreds of hogs are slaughtered daily at certain seasons of the year, although not during the spring and sunfiner. The surrounding atmosphere, to a considerable distance, is corrupted with fetid and noiseme smells. The inhabitants in the neighborhood, in order in some degree to diminish the disgusting and sickening effect of those smells, are compelled to keep their windows closed, and are thus dearred from that most derivable and salutary enjoyment—the use of the fresh air, and are prevented from employing the ordinary means of ventilation to remove the carbonic acid which is continually escaping from the lungs and surface of the body. Hundreds of those noisome animals must be continually collected together on the premises to supply the place of those that are slaughtered, and it may be readily conceived that the stench which they emit must not only most seriously inconvenience the neighborhood, but must vitiate the atmosphere and render it absolutely unwholesome. If a butcher's slaughtered and it may be readily conceived that the stench which they emit must not only most seriously inconvenience the neighborhood, but must vitiate the atmosphere and render it absolutel

amuvia, in addition to the smells and unavoidable decomposition of the entralis, refuse pieces, and excrementitions matter of the slaughtered carcases of those animals.

I believe the ewners of this establishment have adopted all the means in their power to avoid these consequences; but it is utterly impossible to avoid them. The establishment cannot properly be any thing else, but a nuisance, and a nuisance of a very aggravated description, more or leas detrimental to the public health.

Under this state of things, I am asked to restrain the City Inspector from abating this nuisance. I will not inquire into the particular authority under which he threatens to do this, when the Court is convinced that the nuisance exists, it will not restrain any one from abating it, but will leave him to act upon his responsibility.

Having come to this conclusion, it is unnecessary to consider the regularity of the proceedings before the Board of Health, or the constitutionality of the law, which has invested them with judicial and other authors in cases of this nature. Injunction dissolved.

ACTION FOR LIBEL—HEAVY DAMAGES.

MAY 15.—Shearjachub Spooner against John M. Daniels, proprietor of the Richmond Ezamiaer, for an alieged libel contained in that paper of the 14th January, 1551. The article complained of was a criticism on a reprint of Boydell's Illustrations of Shakspare, issued by Mr. Spooner—with original descriptions of the plates—and which was characterized by the defendant as "a legal ayindle and a barefaced humbung attempted to be passed upon the community." Damages were laid at \$60.000. The original volume and the co and that the impressions from some of the article, and that the impressions from some of the restored plates were better than the original. Messrs. N. B. Blunt and H. B. Townsend appeared for the plaintiff. There was no appearance for the defence. The Judge charged the jury, and said that it was the province of newspapers to criticise works of art, and the public looked to them for opinions in matters of the kind; it was for the jury to say how far the article was justified. Verdiet for plaintiff \$8,000.

MONEY MARKET.

Turspay, May 16-6 P. M.
The stock market took the back track to-day, and all the fancies fell off nearly as much as they had advanced the fancies fell off nearly as much as they had advanced during the previous three days. Quotations rule now about the same as at this time last week, and the market has all the indications of another depression. The fact is the bulls have no backbone. They have no strength to carry stocks, and what is more, have no disposition to enter into speculations. The market is completely bare of speculators for a rise. We do not see how pletely bare of speculators for a rise. We do not see how the bears contrive to put out contracts to one half the extent reported. None of the brokers believe in an ad-vance in prices. We have not seen a good strong bull in Wall street for weeks, and have been on the lookout in Wall street for weeks, and have been on the lookout for some sanguine speculator for a rise who could give some plausible, sensible reason why fancy stocks should improve; but we have looked in vain. If there are any bulls in the market they keep very quiet, and operate silently. At the first board to-day, Canton Company fell off 34 per cent; Illinois Central Bonds, 34 New Yerk Central Bonds, 35; Nicaragua, 45; Cumberland, 45; New York Central Balleoud, 15; Stochaston, 16 land, 34; New York Central Railroad, 1; Stonington, 34; Erie Railroad, 34; Harlem, 36; Reading Railroad, 34; Cleveland and Toledo Railroad, 34. The decline to-day, and the pre-vious depression, have not been caused by any stringency in money matters, for the supply of capital is abundant, as shown by the increase in deposits. The depreciation in market value has been brought about by a gradual disappearance of confidence from the public mind, and the general distrust that exists relative to financial operations of all kinds.

to draw to a close, and that the recent disagreement be-tween the masters and men at Stockport will also be ad-justed. The patience with which the working classes have borne deprivations during the long struggle at Pres-ton, is generally acknowledged. We are sure the mas-ters would gladly enhance wages if they could see their own back again. At the present prices of the raw mate-rial, a very nice calculation is not required to show that the present market rates are not remunerative to the producers.

WHICH SHIP WINCHESTER.—TO THE J. Baving been stated in the published accounts of the wreck of the ship Winchester, that the lifeboats unk, and telieving that great injustice may be done to Francis' lifeboats thereby, the undersigned would state, that after falling in with the wreck, P. W. King and four seamen started in one of our Francis' lifeboats upon a most terrific sea. Very scon the boat, which was attached to the vessel by a line of some thirty or forty fathoms, rose upon a wave of mendous force as to tear part of the iron at the beer from the keel, and of course the front air chamber filled, but the remaining air chamber kept the boat slows the loss of her front air chamber, was comparatively use less, and, letting her go, was seen wending her way over many ability, until out of sight. With the remaining metallic lifeboats (and the ship had but one wood boat, and this not used), the passengers and crew, four hundred and seventy, seven, were put on board the steamer. It is in the performance of such service as this that the Francis' lifeboat is appreciated, and we most willingly add our humble could have accomplished the rescue of these passengers in such a sea, and all whe have ever used a Francis' metallic lifeboat know the feeling-of security which their irrepth and bnoyaney impart to those who trust their lives upon a perilous undertaking.
